

How is food produced?

Working on the project "Be the change... you want to be!", "Minija" progymnasium students visited the Kretinga district education center. The children watched how is baked bread and had the opportunity to bake bread themselves.

The children watched how was baked bread and had the opportunity to bake bread themselves.

The friendly cookery team helped us to prepare dough.

They showed us how to knead dough.
Children kneaded dough until the dough becomes
satin-smooth.

Then gently moulded it into a ball.

Children made beautiful loaves of bread.

They put loaves on a baking tray.

They bake for 25-30 minutes.
Children wait and listen stories about life in
ancient.

Bread bake until golden brown colour.
It is delicious. Taste it!
